

WASHINGTON STATE
DEPARTMENT OF ECOLOGY

Notification of Dangerous Waste Activities

Form 2

Application for RCRA Site Identification Number

(This is not a permit application)

Prepared by
Washington State Department of Ecology
Hazardous Waste and Toxics Reduction Program

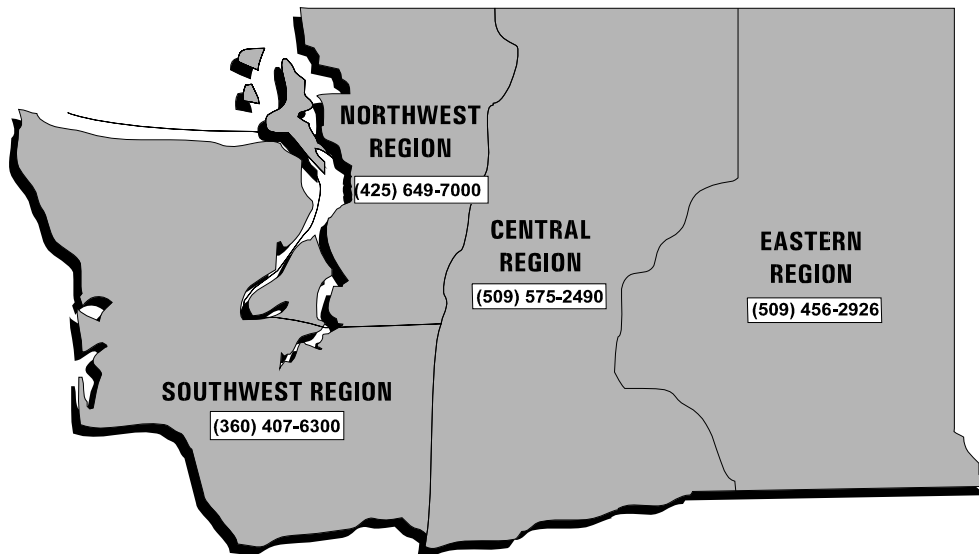

Publication #91-28
Revised February 2002

printed on recycled paper

For additional copies of this application
package, please contact:

Washington State Department of Ecology
Attention: D.W. Notifications
PO Box 47658
Olympia WA 98504-7658

Telephone: (360) 407-6737

The Department of Ecology is an equal opportunity agency and does not discriminate on the basis of race, creed, color, disability, age, religion, national origin, sex, marital status, disabled veteran's status, Vietnam Era veteran's status or sexual orientation.

If you have special accommodation needs or require this document in alternative format, please contact the Hazardous Waste and Toxics Reduction Program at (360) 407-6700 (voice) or (360) 407-6006 (TDD).

Ecology's telecommunications device for the deaf (TDD) number is (360) 407-6006. Regional TDD numbers are:

CRO (TDD) (509) 454-7673
ERO (TDD) (509) 458-2055

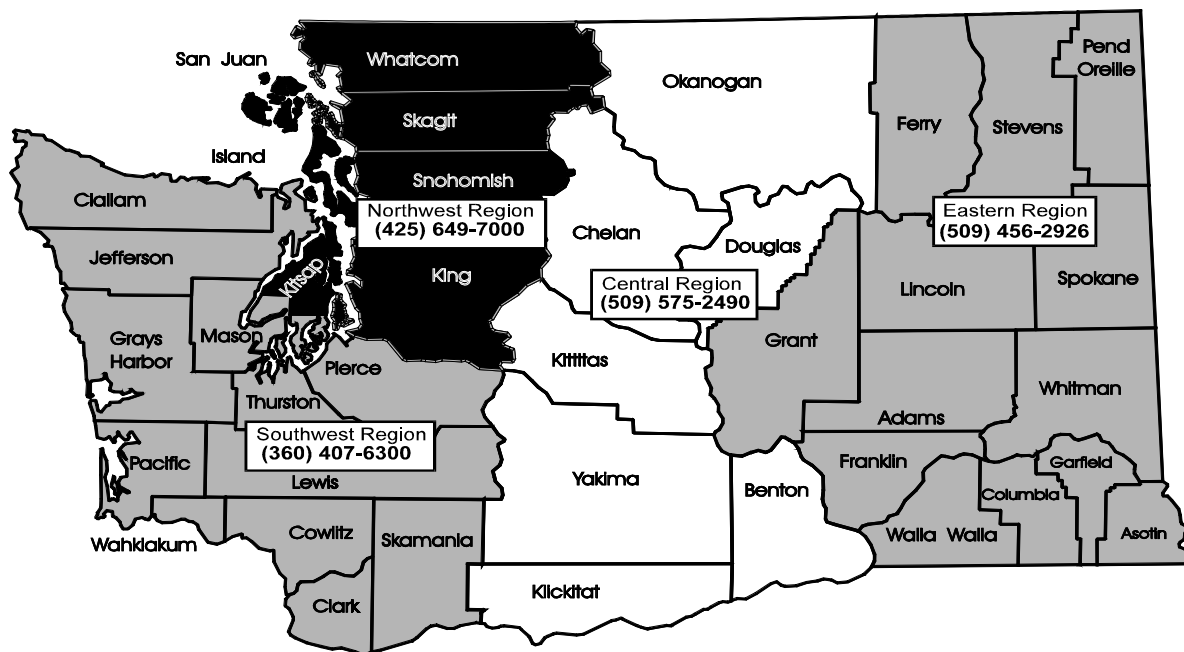

NWRO (TDD) (425) 649-4259
SWRO (TDD) (360) 407-6306

Notification of Dangerous Waste Activities Forms

WAC 173-303-210, Generator recordkeeping, paragraph (2), states in part “... The generator shall keep a copy of his most recent notification (Form 2) until he is no longer defined as a generator under this chapter.”

The Use of Terms “Hazardous” and “Dangerous” Waste

The terms “hazardous” and “dangerous” will be used interchangeably throughout these instructions. Both refer to the full universe of wastes regulated by the state of Washington under Chapter 173-303 Washington Administrative Code (WAC) and the United States Environmental Protection Agency (USEPA) under Title 40 in the Code of Federal Regulations (CFR) Part 261. The state regulations include all wastes regulated by the Federal government. Fully regulated wastes are limited to those quantities generated or accumulated in excess of the quantity exclusion limit (QEL). The QEL for many common waste streams is 220 pounds generated per month or 2,200 pounds maximum accumulation. Other terms used throughout these instructions may be found in the glossary beginning on page 15.

The Use of Terms “RCRA Site Identification Number” and “EPA/State Identification Number”

The term “RCRA Site Identification Number” replaces “EPA/State Identification Number” throughout these instructions. Both refer to Notification and Identification Numbers as referenced in the Washington Administrative Code (WAC), 173-303-060.

FORM 2 NOTIFICATION OF DANGEROUS WASTE ACTIVITIES

Washington State Department of Ecology
Attn: DW Notifications
P. O. Box 47658
Olympia, WA 98504-7658
(360) 407-6737

Date Received:

Note: Failure to properly and completely fill out your form may delay processing and/or cause your form to be returned for completion. Associated page numbers with detailed instructions are listed for each section.

1. **Notification.** Please select one of the following choices. (p.5)

1.a. ☐ New notification

OR

1.b. ☐ Existing RCRA Site ID# WA _____

if 1.a., complete entire form

if 1.b., choose desired action below and fill in effective date.

☐ Revise Notification (complete entire form)

Indicate which sections are being revised _____

☐ Reactivate Site ID# (complete entire form)

☐ Withdraw/Cancel Site ID# (skip sections 8 and 9)

Effective date of change: ____/____/____
mm dd yyyy

DEPARTMENTAL USE ONLY

W A _____

2. **Site Information** (p.7)

Company Name _____

Site Location _____

8. Hazardous Waste Generator Status and Activities

Indicate the facility's generator status by checking the appropriate boxes below. Check all that apply.

8.a. Dangerous waste activity (p.8-13)

1. Generator

- ☐ a. Greater than 2,200 lbs
☐ b. 220-2,200 lbs
☐ c. less than 220 lbs

2. Frequency

- ☐ a. Monthly
☐ b. Batch
☐ c. One-Time Only*

3. Transporter (indicate mode in boxes 1-5 below)

- ☐ a. Transport own waste
☐ b. Transport for commercial purposes
☐ c. Transfer facility

Mode of Transportation

- ☐ 1. Air
☐ 2. Rail
☐ 3. Highway
☐ 4. Water
☐ 5. Other-specify: _____

4. Treater, Storer, Disposer Activity (at installation).

Note: A RCRA Permit is required for this activity.

- ☐ a. Treatment Facility
☐ b. Storage Facility
☐ c. Disposal Facility
☐ d. Is activity for waste generated on-site
☐ e. Is activity for waste generated off-site
☐ f. No longer RCRA-TSD Active

5. Dangerous Waste Fuel Activity

- ☐ a. Generator of Fuel
☐ b. Generator Marketing to Burner
☐ c. Other Marketers (i.e., blender, distributor)
☐ d. Burner (indicate type of combustion unit)
☐ 1. Utility boiler
☐ 2. Industrial boiler
☐ 3. Industrial furnace
☐ e. Deferrals/Exemptions (in federal registers only)
☐ 1. Smelter deferral
☐ 2. Small quantity exemption
☐ 3. Other (*list*)

☐ 6. Immediate recycler

☐ 7. Permit by Rule facility

☐ 8. Treatment by Generator

☐ 9. Mixed Radioactive

☐ 10. LQHUW (Large Quantity Handler of Universal Waste)

- ☐ a. Batteries
☐ b. Mercury containing thermostats
☐ c. Lamps

8.b. Used oil fuel activities (p.11-12)

1. Used oil fuel marketer

- ☐ a. Directs shipment of used oil to used oil burner
☐ b. First claims the used oil meets the specifications

2. Used oil burner – indicate type(s) of combustion device(s)

- ☐ a. Utility boiler
☐ b. Industrial boiler
☐ c. Industrial furnace

3. Used oil transporter – indicate type(s) of activity(ies)

- ☐ a. Transporter
☐ b. Transfer facility

4. Used oil processor/re-refiner – indicate type(s) of activity(ies)

- ☐ a. Process
☐ b. Re-refine

*Once you have disposed of the waste, you must complete a notification to withdraw/cancel the site RCRA Site ID number.

RCRA Site ID # (p.5) WA _____

Name of Site (same as section 2) _____

9a. Waste Description (p.12)

9b. Waste Codes: (p.12-13)

1. **Listed** (WAC 173-303-9903, and -090): Fill in those codes that best describe your waste(s).

2. **Characteristics** (WAC 173-309-090): Identify (circle or fill in) those codes that best describe your waste(s).

D001	D002	WSC2	D003	TCLP _____
Ignitable	Corrosive	Solid Corrosive	Reactive	

3. **State** (WAC 173-303-100): Circle those codes that best describe your waste(s).

WT01 WT02	WP01 WP02 WP03	WL01 WL02
Toxic	Persistent	Labpack

10. Comments (p.13)

11. Notification checklist (p.13)

- ☐ Did you sign and date the notification form?
- ☐ Did you keep a copy for your files?
- ☐ Did you complete the correct sections of this notification form to fit your situation? (See section 1 – Notification).
- ☐ If you are Withdrawing/Canceling your RCRA Site ID number, you are responsible for annual reports up to the date your regulated dangerous waste activities ended. Did you submit your completed annual report with this request for Withdraw/Cancel?

12. Certification (p.13) **This form cannot be processed without a signature**

I certify under penalty of law that I have personally examined and am familiar with the information submitted in this and all attached documents, and that based on my inquiry of those individuals immediately responsible for obtaining the information, I believe that the submitted information is true, accurate and complete. I am aware that there are significant penalties for submitting false information, including the possibility of fine and imprisonment.

Signature

Name and official title (type or print)

Date signed

NOTIFICATION OF DANGEROUS WASTE ACTIVITIES INTRODUCTION

Who must file?

The Resource Conservation and Recovery Act of 1976 (RCRA), federal hazardous waste regulations, and Chapter 173-303 WAC, Washington State's *Dangerous Waste Regulations*, require anyone who generates or transports regulated quantities of hazardous waste, or who owns or operates a facility for transferring, recycling, treating, storing, or disposing of hazardous waste to notify the USEPA and the Washington Department of Ecology (Ecology) of their activity. Filing a notification with Ecology will also satisfy the requirement for USEPA.

If you generate, transport, offer for transport, transfer, recycle, treat, store, or dispose of regulated quantities of hazardous waste without filing a notification and obtaining a RCRA Site ID#, you may be subject to civil and criminal penalties.

What is a RCRA Site ID#?

The required RCRA Site ID# you are applying for is not a permit or license. It is an identifying number used for tracking wastes from their point of generation to final disposal. The Uniform Hazardous Waste Manifest system (EPA Form 8700-22) is the primary mechanism to ensure that wastes reach their intended destination. The transporter and the receiving facility signatures on the manifest you have prepared and sent with the shipment provide some assurance that the waste has been properly handled.

Are RCRA Site ID#s Site Specific?

A RCRA Site ID# is assigned to every site that is regulated by Chapter 173-303 WAC. The RCRA Site ID# for generators and TSDRs are site specific. Identification numbers designate the locations where wastes are generated and managed. If you change your business location and will be conducting regulated waste activity, you must obtain a RCRA Site ID# for your new location. The RCRA Site ID# originally assigned to your site may not be used for waste generated at any other site.

How many forms should be filed?

You are required to submit one notification form per site. If you conduct hazardous waste activities at more than one site, you must submit a separate form for each location. Filing a notification with Ecology will satisfy the filing requirement for USEPA. The RCRA Site ID# assigned will be used for both State and Federal purposes.

- If the site ownership information provided on this form changes, a revised notification must be completed and submitted to Ecology. In order to reduce unnecessary paperwork, Ecology will now accept the verification form from your annual report to notify us of an ownership change.
- If you add or drop any of the following dangerous waste activities, a revised notification must be completed and submitted to Ecology: permitted treating, storing and/or disposing including interim status, immediate recycling, transporting, permit-by-rule and/or treatment-by-generator, used oil activity, transfer facility or universal waste activity.
- If your facility location changes, you must submit two of the enclosed Form 2s, marking one a "new notification" to apply for a RCRA Site ID# for your new site and marking the other as a "withdraw/cancel," or "revision" for your existing site (whichever applies). Additional copies of the form may be made from the originals in this booklet. Additional booklets may be requested by calling (360) 407-6737 or by contacting any of Ecology's regional offices. (See map on page iv for further information.)
- If you are no longer in business, no longer occupy this site, or no longer generate regulated amounts of waste, a withdraw/cancel notification must be completed and submitted to Ecology.

Where should I submit my completed form?

Submit completed forms by mail to:

Washington Department of Ecology
Attn: DW Notifications
P.O. Box 47658
Olympia, WA 98504-7658

You may express deliver the form to Ecology, if you wish. Use the following street address for deliveries:

Washington Department of Ecology
Attn: DW Notifications
300 Desmond Drive
Lacey, WA 98503

Telecopied (FAX) notifications are not acceptable for RCRA Site ID# assignment. You may photocopy the forms, but Ecology must receive the notification complete with original signature. All sections of this form must be completed to receive a new RCRA Site ID#. If any information is missing or not clear, the form will be returned or the information required will be requested by phone at the discretion of Ecology. You will receive a written confirmation of the RCRA Site ID# assigned within two to three weeks from Ecology. Remember, the RCRA Site ID# may only be used for the activities indicated in this notification in Section 8. If you change or add activities, a revised notification must be completed before using your RCRA Site ID# for the new activities.

What are the requirements for each category of dangerous waste activity?

1. New Generators and Transporters.

If you begin generating regulated amounts of hazardous waste and have not previously filed a notification, you must obtain a RCRA Site ID# before you offer any hazardous waste for transport. If you transport hazardous waste, you must meet all State and Federal transporter requirements. A RCRA Site ID# does not replace the requirements of State or Federal regulations and licenses for hazardous materials handling and transport. These regulations may be found in 49 CFR 100-199. For further information regarding United States Department of Transportation (USDOT) regulations, contact the Federal Highway Administration at (360) 753-9875.

2. One-Time-Only Disposal.

Notification for one-time-only disposal is essentially the same as in other situations. When a person is disposing of waste(s) on a "one-time-only" basis, a RCRA Site ID# must be requested by completing this form. Follow the instructions for "New Notification" found on page 5. In Section 8, "Dangerous Waste Activity," subsection 2, "Frequency," mark box C "one-time only." Normal processing and assignment of a permanent number will then occur.

Once you have disposed of the waste, you must complete a notification to withdraw or cancel the site RCRA Site ID#. Your reporting requirements will be satisfied after all of the following conditions are met:

- all regulated waste generating or management activities have ceased at this site;
- all regulated wastes have been removed from the site under a proper manifest and waste receipt confirmation has been obtained or secured from the receiving facilities; and

- A *Dangerous Waste Annual Report* has been submitted for the calendar year you are requesting to withdraw/cancel the RCRA Site ID#. Report forms for the previous calendar year are mailed to each site with a RCRA Site ID# during the month of December. If you do not receive a *Dangerous Waste Annual Report*, by December 31, or if you would like information about how to file your report earlier in the year, call Ecology at (360) 407-6734 and request one in time to meet the statutory March 1 deadline.

3. Treatment, Storage, and Disposal Facilities (TSD).

If you own or operate a waste management facility where hazardous waste is currently treated, stored, or disposed and:

- you did not file a notification prior to November 19, 1980 for wastes designated by 40 CFR Part 261; or
- you did not file a notification prior to March 10, 1982 for wastes designated by Chapter 173-303 WAC and not designated by 40 CFR Part 261; or
- you did not file a notification within ninety (90) days of the date you first became regulated pursuant to changes or amendments to State or Federal regulations;

then you must obtain a hazardous waste final facility permit to continue your hazardous waste TSD activities.

If you plan to open a new hazardous waste TSD, you must obtain a hazardous waste permit before beginning operations. Call the Ecology regional office nearest you for information regarding TSD permits. (See map on page iv for this information.)

If you are a generator, following the guidance of Ecology's Technical Information Memorandum (TIM) 96-412, *Treatment by Generators* (revised May 1999), see the instructions for "Treatment by Generator" found on page 10.

4. Emergency RCRA Site ID#'s.

In the case of emergencies, contact your nearest Ecology regional office (see map on page iv for further information). An Ecology regional inspector must declare an emergency and the need for an emergency RCRA Site ID#. The inspector will authorize clean-up and shipment of spill material as necessary. There are no other provisions for emergency RCRA Site ID#'s.

Determining if your waste is dangerous

Washington's *Dangerous Waste Regulations* require generators to designate any solid waste that is not specifically exempted by Ecology. Waste designation is a procedure to determine whether or not a solid waste is a dangerous waste (DW) or an extremely hazardous waste (EHW). Dangerous waste codes and their associated Quantity Exclusion Limits (QELs) are identified for each waste during designation. The waste codes and QELs, together with the number of pounds of each waste that are generated each month determine your site's generator status.

Steps for Designating Your Waste

To designate your waste as a dangerous waste, follow the sequential steps below. Reference Chapter 173-303 WAC as needed.

1. Discarded Chemical Product List:

First determine whether your waste is a discarded chemical product, as explained in WAC 173-303-081. All unused chemicals that, when discarded, constitute a dangerous waste are listed in WAC 173-303-9903. Use this list to locate and identify the appropriate waste code.

2. Dangerous Waste Sources List:

If your waste appears on the Dangerous Waste Sources List, or if it results from the management of one of the wastes on that list, then you must designate the waste as a dangerous waste. WAC 173-303-082 explains how to designate a waste based on its source. The full list of specific sources and non-specific sources are provided in WAC 173-303-9904.

A waste cannot designate on both of the previous lists, unless mixing has occurred. If a listed waste code applies to your waste, enter it in Section 9b.1 of this notification.

3. Characteristic Dangerous Waste:

If your waste does not appear on either of the lists above (steps 1 and 2), or if it will be land disposed, check WAC 173-303-090 for each of the following four general characteristics:

- **Ignitability (D001)**
- **Corrosivity (D002, WSC2)**
- **Reactivity (D003)**
- **Toxicity - TCLP (D004-D043)**

If a characteristic waste code applies to your waste, enter it in Section 9.b.2 of this notification.

4. Dangerous Waste Criteria:

If your waste did not designate with a listed or characteristic code in the preceding steps, check WAC 173-303-100 and WAC 173-303-104 for the following dangerous waste criteria:

- **Toxicity (WT01, WT02)**
- **Persistence (WP01, WP02, WP03)**

Under the following special conditions, even if your waste designated as a listed characteristic or criteria waste, further designation under the criteria is required because it may change your generator status and/or how the waste must be managed (refer to WAC 173-303-070(5)).

- You want to qualify for small quantity generator (SQG) status.
- Your waste is discharged to a publicly owned treatment plant (POTW) operating under a permit-by-rule (PBR).
- Your waste designates as a state-only dangerous waste and it will either be burned for energy recovery as used oil or land disposed within Washington State.

Note: W001 waste can no longer be burned or managed as used oil.

If a criteria waste code applies to your waste, enter it in Section 9.b.3 of this notification.

This is a very general guide to the procedures for designation found in the text for actual regulatory language and designation procedures. Copies of Chapter 173-303 WAC may be obtained by calling Ecology's regional office nearest you or the headquarters office in Olympia. See the map on page iv for phone numbers and addresses.

NOTIFICATION OF DANGEROUS WASTE ACTIVITIES LINE-BY-LINE INSTRUCTIONS

Type or print in blue or black ink. Space is provided in Section 10, “Comments,” for clarification or continuation of entries. If additional space is needed, please use and attach as many sheets as necessary. Title each sheet “Continuation Sheet for Notification Form,” and include your company name and the date in the upper left corner of the sheet.

For the name and address information requested, if you need to repeat a particular name or address for more than one question, you may simply specify “Same as question XX” (e.g., if the site mailing address in question 3 is the same as the location address in question 2, write “Same as 2” in the space for question 3).

Please read the instruction before completing any of the questions. This will help you avoid having to correct portions of the notification. Do not leave any of the questions blank—you must at least write “Same as...” on the first line of the question.

1. Action to be taken on this notification for a RCRA Site ID#

Place an “X” in the appropriate box and follow its specific instructions.

1.a. New Notification

If you have not previously applied for or been assigned a RCRA Site ID# for this location, mark this box and complete all sections of the form. **For additional guidance please refer to page 2.**

1.b. Existing RCRA Site ID#

If this is not a new notification, complete this section by printing your existing RCRA Site ID#, the desired action, and the date this action becomes effective. For example, if your company has gone out of business, no longer occupies the site, and/or has been sold, check the withdrawal/cancel box and indicate the effective date when the last of the dangerous waste was removed from the site.

■ Revise Notification

Mark this box if you are updating information previously submitted for this site and

1. enter the section(s) number(s) being revised. (For example, you would list the numbers 2,4,10 if you were changing your company name, ownership and waste description);
2. enter the date these revisions will be effective;
3. complete the entire form;
4. use Section 10 “Comments” for any details or explanations.

Ecology will confirm revised notifications by mail, in two to three weeks.

If your site location is changing, do not use the Revise Notification box. You must submit (1) a new notification to request a RCRA Site ID# for your new location and (2) a withdraw/cancel notification for your existing site.

If you previously notified as a TSD facility (see Section 8a.4) and you are requesting to delete these activities, you must complete closure before agency records can be updated. Contact Ecology's nearest regional office (see map on page iv) to initiate the closure process. Once closure is complete, Ecology will delete the TSD facility activity status from the notification listings.

■ **Reactivate Site ID#**

Mark this box if you wish to reactivate a previously withdrawn/cancelled RCRA Site ID#. Reactivating a number is only allowed if the same business owner that withdrew/cancelled the number is requesting the reactivation. If that is the case:

1. Enter the date your reactivation will be effective; and
2. Complete the entire form.

* If the business is under new ownership, the applicant needs to mark the "New Notification" box 1.a. and complete the entire form.

■ **Withdraw/Cancel Site ID#**

Mark this box if you have discontinued regulated dangerous waste activities at this site or if you are no longer in business or no longer occupy the site:

1. Enter the date your dangerous waste activities stopped; and
2. Complete questions 1-7 and sign the bottom of the last page.

The withdrawal/cancellation of your RCRA Site ID# will be approved by Ecology after all of the following three conditions are met:

1. All regulated waste generating or management activities have ceased at this site;
2. All regulated wastes have been removed from the site under proper manifests. In the case of TSD facilities operating under interim or final permit status, the closure must be completed pursuant to Chapter 173-303 WAC; and
3. All dangerous waste annual reporting requirements have been completed. An annual report must be submitted for any part of a calendar year that your RCRA Site ID# is active. Annual reports for the calendar year are mailed to each site with an active RCRA Site ID# during the month of December. You may wait until December to receive your annual reporting package (due March 1) or call (360) 407-6736 to request a reporting package for early submittal.

2. Site Information

Company Name

Enter the name of your company and/or site. Identify your site in some way that separates it from others with the same name that are owned by the same organization. For example, Department of Ecology - Olympia Motor Pool and Department of Ecology - Southwest Regional Office.

Site Location

Enter the street address or location of the site identified in Section 3. If the site's geographic location is not clear, a RCRA Site ID# cannot be assigned. Do not use a post office box or route number. If the site does not have a street name and number, provide accurate geographic information such as: 1) township, range, section, and quarter-section; or 2) distance and direction from an intersection of named roads or numbered highways. Indicate the county in which your site is located in the space provided.

Revenue Number

Enter your Washington State Department of Revenue Tax Registration Account Number as it appears on your business license. Enter the nine digits only; do not enter any letters preceding the number. Contact your fiscal office or the Department of Revenue if you do not know your registration number. Do not use your federal tax number here. If you are a tax-exempt agency, enter "NA" in the first two spaces and leave the other spaces blank.

North American Industry Classification System Code (NAICS)

Enter the five or six-digit NAICS code that best describes the principal activity conducted at this site. If more than one code applies, please enter the primary code (the code that best describes the majority of products and services of your business) in the first space provided (this is the code under which your business is registered with the Washington State Department of Revenue). You may list up to three other relevant codes in the comments section, if desired. A list of NAICS codes can be found starting on page 19.

Type of Business

Provide a brief description of the type of activity that takes place at this location.

3. Company Mailing Address

Enter the complete mailing address for the site identified in Section 2. Include internal routings, such as mail stops, building numbers, or suite numbers.

4.a. Legal Owner

Provide the name(s) of the legal owner(s) of this business. Also enter the mailing address and telephone number where this person can be reached. Use Section 10, "Comments," if necessary, to list more than one owner. If the legal owner is a corporation, enter the corporate name and address.

Owner Since: Include the date that this party took ownership.

4.b. Legal Ownership Type

Circle the appropriate letter which best describes the legal status of the owner of this business. If you choose "O" for Other, please specify in Section 10, "Comments."

5.a. Land Owner

Provide the name(s) of the legal owner(s) of the land upon which this business is located. Also enter the mailing address and telephone number where this person can be reached. Use Section 10, "Comments," if necessary, to list more than one owner. If the legal owner is a corporation, enter the corporate name and address.

5.b. Land Ownership Type

Circle the appropriate letter which best describes the legal status of the land on which the business is located. If you choose "O" for Other, please specify in Section 10, "Comments."

6. Contact for Site Visits and Inspections

Enter the name, job title, telephone number, and mailing address of person to contact for site visit related questions.

7. Contact for Questions on Notification Forms and Annual Reports

Enter the name, job title, telephone number, and mailing address of an authorized person within your company who is thoroughly familiar with the operation of this site and with the facts reported in this notification. If questions arise, this individual will be contacted regarding information submitted on this form, and annual reports.

8. Types of Regulated Waste Activity

Mark an "X" in the appropriate box(es) to show which dangerous waste activities are going on at this site.

The RCRA Site ID# assigned may be used for more than one activity at this location. However, this applies only if you have notified for each activity. For example, you may not transport your regulated waste if you only notify as a generator.

1. Generator

If you generate and/or accumulate a dangerous waste that is regulated by Chapter 173-303 WAC, you must mark an "X" in one of the following boxes:

- a. Large Quantity Generators (LQG)
- b. Medium Quantity Generators (MQG)
- c. Small Quantity Generators (SQG).

Estimate the weight of your monthly generation. Choose the box that best describes this estimated amount.

Selecting a Generator Category:

Mark an "X" in the box on the form that best describes your generator status: a. b. or c.		
If you have...		
All waste with QEL=220 lbs.	All waste with QEL=2.2 lbs.	Mark Box:
And you estimate the weight of your monthly generation to be:		
Greater than 2,200 lbs. per month	Greater than 2.2 lbs. per month	a.
220-2,200 lbs. per month		b.
Less than 220 lbs. per month	Less than 2.2 lbs.	c.
Greater than 2.2 pounds of acute hazardous waste or WT01 waste.		a.

2. Frequency

Mark an "X" in the box that best describes the frequency of your generation.

If you generate waste at least once each month, mark a. Monthly.

If this waste disposal is a one-time only occurrence, mark c. One-Time Only.

In all other cases, mark b. Batch.

3. Transporter

Transporters are those who physically move waste off-site. If you transport dangerous waste, mark an "X" in each appropriate box to indicate:

If it is your own waste, mark a.

If it is for commercial purposes, mark b.

Mark both boxes if both classifications apply, then indicate the mode of transportation.

To register as a transfer facility, mark c.

Further information on USDOT regulations may be obtained from the Federal Highway Administration at (360) 753-9875.

For information regarding motor carrier safety regulations, contact the Washington Utilities and Transportation Commission (WUTC) at (360) 753-6423.

4. Treater, Storer, Disposer (TSD)

If you treat, store, or dispose of regulated wastes, mark an "X" in the appropriate box(es) to indicate where this waste was generated and to indicate which RCRA permitted activities occur at your facility. Refer to the glossary (beginning on page 15) for definitions of treatment, storage, and disposal.

Sometimes an applicant proposes a new facility or wants to significantly expand an existing facility. In that case, the applicant must write to Ecology about the proposal 150 days beforehand. In that packet, called a Notice of Intent, the applicant must show that the site meets criteria for siting dangerous-wastes. A new facility must show it meets the criteria before the permit process can continue. An existing facility that does not meet the criteria can show that it will make the site safer to operate. This notice of intent triggers a meeting that the applicant sponsors. For more information contact Ecology's Hazardous Waste and Toxics Reduction Program:

Telephone: (360) 407-6700
Fax: (360) 407-6715
TDD: (360) 407-6006

Address: Department of Ecology - HWTR
PO Box 47600
Olympia WA 98504-7600

5. Dangerous Waste Fuel

If you market dangerous waste fuel, place an "X" in the appropriate box(es). If you burn dangerous waste fuel on-site, place an "X" in the appropriate box and indicate the type(s) of combustion devices in which dangerous waste fuel is burned.

Notifying for Dangerous Waste Fuel Activities (WAC 173-303-510)

	Managing Dangerous Waste Fuels for Energy Recovery	Managing Exempt Waste Derived Fuels Under Section 120
Generator	Yes	No
Transporter	Yes	No
Transfer Facility (owner/operator)	*	No
Distributor and /or Marketer	Yes	No
Blender (processor)	Yes	No
Burner	Yes	No

*Dangerous Waste Transfer Facility owner operator must register site with Department of Ecology's Hazardous Waste Program.

Refer to the chart on page 11, "Notifying for Used Oil Fuel Activities" to determine if you need to notify, and refer to the glossary (beginning on page 15) for terms used.

6. Immediate Recycler

If you commercially receive and immediately (within a 24-hour period) recycle wastes generated off-site, mark an "X" in this box.

7. Permit by Rule Facility

If you do not require a dangerous waste facility permit due to your qualification for permit by rule status, mark an "X" in this box. Refer to the glossary (beginning on page 15) for the definition of permit by rule.

8. Treatment by Generator

If you are a generator treating your own waste on-site, in accumulation tanks or containers per the standards established by Technical Information Memorandum (TIM) 96-412 (revised May 1999), *Treatment by Generators*, mark an "X" in this box. (The TIM may be obtained by contacting the regional office nearest you or Ecology's headquarters. See map on page iv for this information.)

In addition, use Section 10 on the form, "Comments," to note: (1) whether the treatment is a multi-stage and/or multi-vessel process; **and** (2) whether the treatment is being done in accordance with a process-specific Focus associated with the TIM; for example, filtration or elementary neutralization, or, if not, that the TIM and applicable rules are being followed.

9. Mixed Radioactive

A radioactive waste, as defined by the Atomic Energy Act, which is mixed with a dangerous waste. This waste is regulated under RCRA as well as the Nuclear Regulatory Act and must be reported on these forms.

10. Large Quantity Handler of Universal Waste (LQHUW)

A universal waste handler who accumulates 11,000 pounds or more of universal waste (batteries, thermostats, **or lamps**, calculated collectively) at any time. Lamps have their own LQHUW of 2,200 pounds.

11. Used Oil Fuel Activities

Use the chart below to determine if you need to notify Ecology for your used oil fuel activities. If you have questions, refer to the glossary (beginning on page 15), the full text of Chapter 173-303 WAC, or contact the nearest Ecology regional office or Ecology headquarters in Olympia (see map on page iv).

Used Oil Fuel Activities

Mark an "X" in the appropriate box(es) on the form to indicate which used-oil fuel activities are taking place at this site.

Notifying for Used Oil Fuel Activities (WAC 173-303-515)

	Managing Used Oil for Recycling (but not for energy recovery)	Managing on Spec Used Oil for Energy Recovery	Managing Off-spec Used Oil for Energy Recovery	Burning Used Oil You Generate On Site in Space Heater **
Generator	No	No	No	No
Transporter	Yes	Yes	Yes	No
Transfer Facility (owner/operator)	Yes	Yes	Yes	No
Marketer	N/A	Yes	Yes	No
Burner	N/A	No	Yes	No
Processor/Refiners	Yes	Yes	Yes	No
Collection Center	No*	No*	No*	No
Aggregation Point	No	No	No	No

*Collection Center's are required to obtain, be registered, licensed, permitted, recognized by a state/county/municipal government to manage used oil.

**When you generate used oil on-site, you are also a used oil generator.

1. Used Oil Fuel Marketer

If you market off-specification used oil directly to a burner, mark a.

If you are the first to claim the used oil meets the used oil specification established in WAC 173-303-515, mark b.

(Used oil generators are not required to notify unless acting as a marketer.)

2. Used Oil Burner

If you burn off-specification used oil fuel, place an "X" in the box(es) to indicate the type(s) of combustion device(s) in which off-specification used oil fuel is burned. (Refer to the glossary beginning on page 15 for complete descriptions of each device.)

3. Used Oil Transporter and Transfer Facilities

If you transport used oil and/or own/operate a used oil transfer facility, place an "X" in the appropriate box(es) to indicate this used oil activity.

4. Used Oil Processor/Re-refiner

If you process and/or re-refine used oil, place an “X” in the appropriate box(es) to indicate this used oil activity.

9.a. Waste Description

Please describe the waste stream as you best recognize it (e.g., “used paint thinner”; “electroplating waste water;” etc.)

Transporters requesting a RCRA Site ID# do not need to complete this section, but must sign the “Certification” in Section 12. Only people involved in dangerous waste generation need to complete Section 9.

9.b. Waste Codes

Mark or provide the dangerous waste codes assigned during your waste designation procedures. If you are not certain of the designation process, please request assistance from your waste contractor or a hazardous waste specialist at one of Ecology’s regional offices. See map on page iv.

1. Listed

Using scientific data, USEPA has identified hundreds of discarded chemical products and residuals from many industrial processes that are always dangerous wastes. In addition, W001 waste is a state listed waste and must be recorded in 9b.

Example 1: Spent degreasing solvents containing > 10% methylene chloride in the original product are assigned the waste code F001.

Example 2: Waste from dry cleaning products originally containing >10% perchloroethylene carries the waste code F002.

Example 3: Discarded, unused Aldrin pesticide carries the waste code P004.

2. Characteristics

Exhibits a trait identified as dangerous such as ignitability, corrosivity (including state waste-solid corrosive), reactivity, or production of a toxic leachate due to the presence of certain metals, pesticides, or organic compounds.

Example 1: The waste from many mineral spirit or petroleum naphtha parts washers is *ignitable* (D001) and may be contaminated by metals such as *cadmium* (D006), *chromium* (D007), and *lead* (D008).

Example 2: The waste photographic chemicals from many film processing laboratories may be contaminated with more than five parts per million (ppm) of *silver* (D011).

3. Criteria Dangerous Waste (State-only)

Ecology also regulates waste that designates for toxicity and persistence. For ease of documentation and transport, Ecology developed codes for labpack wastes (WL01 and WL02).

FORM 2: NOTIFICATION OF DANGEROUS WASTE ACTIVITIES

10. Comments

This space may be used to complete or clarify any entry. If used, provide a cross reference to the appropriate section number.

11. Notification Checklist

In order to avoid common oversights, Ecology has provided this checklist to ensure the completion of your notification.

12. Certification

The owner or operator of the site or his/her authorized representative must sign and date the certification where indicated. The printed or typed name and title of the person signing the notification must also be included where indicated. Sign in ink. A completed document with an original signature must be received by Ecology to be processed. Ecology cannot accept documents with photocopied signatures.

GLOSSARY

The following definitions are included to help you complete this notification form. Please refer to the current version of Chapter 173-303 WAC for further details.

ACT or RCRA: The Solid Waste Disposal Act, as amended by the federal Resource Conservation and Recovery Act of 1976, as amended by the Hazardous and Solid Waste Amendments of 1984, 42 U.S.C. Section 6901 et seq.

Aggregation point: A site that accepts used oil from ONLY other used oil generator sites, all owned or operated by the same person. Limit of 55 gallons per shipment.

Authorized Representative: The person responsible for the overall operation of the facility or an operational unit of the facility, e.g., the plant manager, superintendent, or person of equivalent responsibility.

Batch: Any waste that is generated less frequently than once a month. For example, waste from a tank that is cleaned out once every fourteen weeks would be considered a "batch."

Battery: A device consisting of one or more electrically connected electrochemical cells which is designed to receive, store, and deliver electric energy. An electrochemical cell is a system consisting of an anode, cathode, and an electrolyte, plus such connections (electrical and mechanical) as may be needed to allow the cell to deliver or receive electrical energy. the term battery also includes an intact, unbroken battery from which the electrolyte has been removed.

Boiler: An enclosed device using controlled flame combustion and having the following characteristics:

1. The unit has physical provisions for recovering and exporting energy in the form of steam, heated fluids, or heated gases;
2. The unit's combustion chamber and primary energy section(s) are of integral design, (i.e., they are physically formed into one manufactured or assembled unit);
3. The unit continuously maintains an energy recovery efficiency of at least 60%, calculated in terms of the recovered energy compared with the thermal value of the fuel; and

4. The unit exports and utilizes at least 75% of the recovered energy, calculated on an annual basis (excluding recovered heat used internally in the same unit to preheat fuel or combustion air or drive fans or feed water pumps).

Burner: The owner or operator of a utility boiler, industrial boiler, or industrial furnace that burns waste-fuel or used oil for energy recovery and is not regulated as a permitted dangerous waste incinerator. Burner also includes burners of used oil.

Collection Center: A site that accepts used oil from other businesses.

Dangerous Waste: Those solid wastes that designate under WAC 173-303-070 through 173-303-100 as dangerous or extremely hazardous waste.

Dangerous Waste Fuel: Dangerous waste or any fuel that contains dangerous waste which is burned for energy recovery in a boiler or industrial furnace not subject to regulation as a hazardous waste incinerator. The following dangerous waste fuels are subject to regulation as used oil fuels;

1. used oil fuel that is not mixed with dangerous waste but exhibits dangerous waste characteristic(s) as identified in WAC 173-303-090.
2. used oil fuel that solely designates as dangerous waste defined in WAC 173-303-100 and that is not extremely hazardous waste.

Disposal: The discharging, discarding, or abandoning of dangerous wastes or the treatment, decontamination, or recycling of such wastes once they have been discarded or abandoned. This includes the discharge of any dangerous wastes into or on any land, air, or water. NOTE: You are not conducting disposal activity if you are sending your wastes somewhere else for disposal (you are only a generator).

Facility: All contiguous land and structures, other appurtenances, and improvements of the land used for recycling, reusing, reclaiming, transferring, treating, storing, or disposing of dangerous waste. Unless otherwise specified, the terms "facility," "treatment, storage and disposal facility," "TSD facility," "TSDF," "dangerous waste facility," or "waste management facility" shall be used interchangeably.

Generator: Any person, by site, whose act or process produces dangerous waste or whose act first causes a dangerous waste to become subject to regulation.

Immediate Recycler: A commercial facility that accepts hazardous waste from off-site and places the waste into an active recycling process within 24 hours. The phrase “active process” does not include storage tanks or containers used for settling or phase separation.

Incinerator: Any enclosed device that uses controlled flame combustion and is not a boiler, sludge dryer, carbon regeneration unit or industrial furnace.

Industrial Boiler: A boiler located on the site of a facility that is engaged in a mechanical or chemical manufacturing process to transform substances into new products, including the component parts of products.

Industrial Furnace: Any of the following enclosed devices that are integral components of manufacturing processes and that use controlled flame combustion to recover materials or energy: cement kilns, lime kilns, aggregate kilns (including asphalt kilns), phosphate furnaces, refining furnaces, titanium dioxide chloride process oxidation reactors, and methane-reforming furnaces (and other devices as specified by Ecology).

Interim Status: Holding a temporary permit given to TSD facilities which qualify under WAC 173-303-805.

LQG: See Large Quantity Generator

LQHUW: See Large Quantity Handler of Universal Waste

Lamps: Any type of high or low pressure bulb or tube portion of an electric lighting device that generates light through the discharge of electricity either directly or indirectly as radiant energy. Universal waste lamps include, but are not limited to, fluorescent, mercury vapor, metal halide, high-pressure sodium and neon.

Land Disposal: Placement on the land, including landfill, surface impoundment, waste pile, injection well, land treatment facility, salt dome or salt bed formation, underground mine or cave, concrete vault, bunker or miscellaneous unit.

Large Quantity Generator: a facility whose monthly waste generation or accumulation is 2,200 pounds or more of dangerous waste, or 2.2 pounds or more of acutely hazardous waste or WT01 waste.

Large Quantity Handler of Universal Waste:

A universal waste handler as defined in 173-303-040) who accumulates 11,000 pounds or more total of universal waste (batteries, thermostats, and lamps calculated collectively) and/or who accumulates more than 2,200 pounds of lamps at any time. This designation as a large quantity handler of universal waste is retained through the end of the calendar year in which 11,000 pounds or more total of universal waste and/or 2,200 pounds of lamps is accumulated.

MQG: See Medium Quantity Generator

Marketer: A person who markets dangerous waste fuel or used oil fuel. The following are not considered marketers and are not subject to waste-as-fuel requirements (including notification) under Subparts D and E of 40 CFR Part 266:

1. generators and transporters who do not market directly to persons who burn the fuels.
2. persons who market specification used oil fuel and who are not the first to claim the fuel classify as “specification used oil fuel.”

Medium Quantity Generator: A generator whose monthly waste generation or accumulation is 220 pounds or more, but less than 2,200 pounds, of dangerous waste.

Mixed Radioactive: A radioactive waste, as defined by the Atomic Energy Act, which is mixed with a dangerous waste. This waste is regulated under RCRA as well as the Nuclear Regulatory Act and must be reported on these forms.

Off-Specification Used Oil Fuel: Used oil fuel with constituents and/or properties exceeding the allowable levels specified under WAC 173-303-515(1)(d) Table 1.

On Site: The same contiguous, or bordering, property. Travel between two properties divided by a public right-of-way, and owned, operated, or controlled by the same person, shall be considered on-site travel if: a) the travel crosses the right-of-way in a perpendicular direction; or b) the right-of-way is controlled by the property owner and is inaccessible to the public.

One-Time-Only Generation: A single occurrence of regulated quantities of dangerous waste such as a spill.

Operator: A person responsible for the overall operation of a facility.

Other Marketer: Any person who markets dangerous waste fuel, other than a generator marketing his/her own dangerous waste fuel.

Permit: An authorization which allows a person to perform dangerous waste transfer, treatment, storage, or disposal operations, and which typically include specific conditions for such facility operations. Permits must be issued by Ecology, USEPA, or another state authorized by USEPA pursuant to 40 CFR Part 271.

Permit By Rule: “Permit by rule” means a provision of this chapter [Chapter 173-303 WAC] stating that a facility or activity is deemed to have a dangerous waste permit if it meets the requirements of the provision. NOTE: Regulated wastes that are treated on-site and discharged after treatment under the National Pollution Discharge Elimination System (NPDES), state waste discharge, or local pre-treatment permit as defined in WAC 173-303-802.

QEL: See Quantity Exclusion Limit

Quantity Exclusion Limit: The quantity, by weight, at which a waste becomes fully regulated under medium quantity generator and large quantity generator requirements, as per WAC 173-303-070.

RCRA Site Identification Number, EPA/State ID#, or site ID#: The number assigned by USEPA and Ecology to each generator, transporter, TSDF, and transfer facility.

Recycle: To use, reuse, or reclaim a material.

SQG: See Small Quantity Generator

Site: Generator site and/or waste management facility.

Site Contact: A person knowledgeable with the operation of the site and with the information reported to Ecology.

Sludge: Any solid, semisolid, or liquid waste generated from a municipal, commercial, or industrial wastewater treatment plant, water supply treatment plant, or air pollution control facility. This term does not include the treated effluent from a wastewater treatment plant.

Small Quantity Generator: A generator whose monthly waste generation is less than the QEL (220 pounds for most common wastes or 2.2 pounds for acutely hazardous wastes or state WT01) and whose accumulation (at any time) is less than 2,200 pounds for waste with a QEL of 220, or 2.2 pounds for waste with QEL of 2.2 pounds.

Specification Used Oil Fuel: Used oil fuel with constituents and/or properties not exceeding the allowable levels specified under WAC 173-303-515(1)(d) Table 1. May also be referred to as on-specification used oil fuel.

Storage: The holding of dangerous waste for a temporary period. Accumulation of dangerous waste(s) by the generator on the site of generation is not storage as long as the generator complies with the requirements of WAC 173-303-200-201.

TSDF or TSDF: A treatment, storage, and/or disposal facility. May also be referred to as a waste management facility.

TSDF: Same as definition for “TSDF,” but includes commercial recyclers, for purposes of annual reporting.

Transfer Facility: Any transportation related facility including loading docks, parking areas, storage areas, buildings, piers, and other similar areas where shipments of dangerous waste are held, consolidated, or transferred within a period of ten days or less during the normal course of transportation.

Transportation: The movement of dangerous waste by air, rail, highway, or water.

Transporter: A person engaged in the off-site transportation of dangerous waste(s).

Treatment: The physical, chemical, or biological processing of dangerous waste(s) to make such waste(s) non-dangerous or less dangerous, safer for transport, amenable for energy or material resource recovery, amenable for storage, or reduced in volume. NOTE: On-site distillation of your waste solvents is considered to be recycling rather than treatment.

Treatment by Generator: Generators treating their own waste on-site, in accumulation tanks or containers per the standards established by Technical Information Memorandum (TIM) 86-3, *Treatment by Generators* (revised July 1993).

Universal Waste: Wastes managed under the Universal Waste Rule (WAC 173-303-573) are not counted toward generator status and not reported on your dangerous waste annual reports. These include:

■ **Batteries** - all batteries that designate as hazardous waste should be managed as universal waste. Spent lead-acid batteries may continue to be managed under the existing lead-acid battery exemption at WAC 173-303-520.

■ **Mercury containing thermostats** - A mercury containing thermostat is a temperature control device that contains metallic mercury in an ampule attached to a bimetal sensing element (this does not include all mercury switches). Ampules removed from these thermostats should also be managed under the universal waste requirements. Other types of mercury switches must be managed according to all applicable dangerous waste requirements.

■ **Lamps** - Any light bulb/light tube that designates as dangerous waste.

Used Oil: Any oil that has been refined from crude oil, or any synthetic oil, used, and as a result of such use, is contaminated by physical or chemical impurities.

Used Oil Fuel: Any used oil burned (or destined to be burned) for energy recovery. This includes any fuel produced from used oil by processing, blending, or other treatment, that does not contain dangerous waste.

Utility Boiler: A boiler that is used to produce electricity, steam, or heated or cooled air for sale.

WAC: Washington Administrative Code. Chapter 173-303 WAC provides the Department of Ecology dangerous waste regulations.

Waste Fuel: Dangerous waste fuel or off-specification used oil fuel.
